PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) student with hands-on experience in full-stack development, website management, WordPress, SEO optimization, hosting administration, testing workflows, and AI-driven applications. Strong background in website performance, content updates, security practices, and scalable automation solutions. Passionate about intelligent systems, digital platforms, and reliable online operations.

INTERNSHIP EXPERIENCE

Frontend & Testing Intern – Logixmotion

2024 – Present

- Developed and enhanced frontend features for production-level web applications and platforms.
- Performed structured system testing, validation, and reliability checks of web-based platforms.
- Collaborated with backend teams for API integration, debugging, and workflow optimization.
- Improved website reliability through organized testing, issue tracking, and performance monitoring.

PROJECT EXPERIENCE

RakshaMitr – AI-Based Women Safety Platform

- Developing emergency response web system with panic alerts and real-time tracking.
- Integrating predictive safety analytics and web-based dashboard using AI techniques.

PAVI – Smart Home Assistant

- Tracks electricity, water usage, and carbon footprint with web dashboard monitoring.
- Designed AI-based prediction system with offline optimization for reliable access.

INSPETTO – Vehicle Plate Tampering Detection

- Built real-time image recognition web system for number plate verification.
- Implemented database cross-validation and secure web interface for fraud detection.

Automation Systems (Python + Playwright)

- Automated complex map-based UI interactions, backend workflows, and browser pipelines.
- Integrated subprocess handling for reliable web testing and content management tasks.

Sign Language Translation Gloves

- Sensor-based wearable converting gestures into text and speech output via web interface.
- Designed for accessibility-focused deployment and user-friendly digital experience.

LEADERSHIP POSITIONS

- Secretary – RAS IEEE CEAL
- PR & Social Media Lead – IEDC CEAL
- Deputy CFA – FOSS CEAL (Current)
- Learning Coordinator – TinkerHub
- Tech Lead – ISTE CEAL

TECHNICAL SKILLS

Programming:
Python, C, SQL, JavaScript, TypeScript

Frontend:
React.js, HTML5, CSS3, WordPress

Backend:
Node.js, Flask, Firebase

Databases:
MySQL, MongoDB

CMS:
WordPress, Ghost

Tools:
Git, GitHub, Playwright, VS Code, cPanel, Google Analytics

Concepts:
SEO, Website Maintenance, Hosting & DNS, SSL, Performance Optimization, REST APIs, Automation, OCR, NLP, AI/ML

EDUCATION

B.Tech in Computer Science (AI & ML)
College of Engineering Attingal | 2023 – Present

Higher Secondary Education
Kerala Senior Secondary School | 2023

ACHIEVEMENTS

- 3rd Prize – ARCANE National Hackathon
- 3rd Position – IEEE WIE Epilogue 2.0 Hackathon
- Global Nominee – NASA Space App Challenge 2025
- Mentored and evaluated multiple hackathon teams
